

## Naoki Hayashi RDT, MDT, MDC

### Biography and History

Naoki Hayashi graduated from Osaka Dental University (Japan) in 1992. Soon after graduation he worked at the National Dental Laboratory in Japan.

Among other major accomplishments are Naoki 's two publications, "A Diary -Through the Lens", published by Quintessence publishing in 2005 and "Past <<Future -Envision 77 Heart Beats -", published by Ishiyaku Publishing in 2010. Both publications are very useful guides for dentists and technicians. He has also published over 30 articles, several of which are translated into nine languages published internationally.

Currently Naoki works as a master ceramist and is the president of Ultimate Styles Dental Laboratory in Irvine, CA. In addition to his lab work, he conducts lectures & workshops all over the world. He shares his knowledge and skills by offering many hands-on workshops and teaches current trends in dental technology and treatment planning. He is also an international instructor and advisor for Kuraray Noritake Dental Inc., a dental supply company.

Naoki works to continuously utilize the best methods for esthetic porcelain restorations to achieve the greatest results, exceeding the dentist's expectations and meeting their patients' esthetic needs.

Furthermore, his journey has not ended yet; Naoki Hayashi is able to work with brilliant and extremely talented technicians that he deeply trusts and believes in to deliver and achieve the quality that he himself always strives for by spending all his effort to pass on as much knowledge and skill as possible from his own career experience.
